

FOREWORD

The following foreword from Dr. Michael Swords reproduced here from a project SIGN paperback published by the Fund for UFO Research completely matches our thinking for "The Majestic Documents."

"The study of the UFO phenomenon has been as enigmatic as the phenomenon itself. A great deal of effort and energy has been expended, and yet, for all the hours spent by intelligent researchers, the subject remains in the disrespected fringes of so-called serious work.

Why bother studying historical documents? Because what is missing, other than extraordinarily concrete physics-like evidence, is history. Ufology, strangely, has not established a good historical record. One of the hallmarks of reality — real things — is that there is a history. With the possible exception of the Big Bang and the odd miracle, everything real has history. Where is the history of Ufology? In the eyes and minds of the intellectual world, the UFO phenomenon has been (in the words of Charles Fort) 'just one damned thing after another.' The best documented cases and the stories of the most egregious lunatics, alike, all just fade away in the mist of passing time without having any lasting impact.

The vast majority of persons interested in UFOs have never realized this, or, perhaps because they are just involved for the kicks, do not care. Even most serious researchers do not understand why their work keeps slipping away beneath their feet like sand. They pursue the strong case in hopes that it will be the one which finally convinces. Barring some startling breakthrough by direct contact, that 'one' case will never come. A growing sense of reality comes more humbly, and in a more orderly manner. It comes by establishing a solid, disciplined history. Academia deals with 'disciplines' and order and conscious connection. Ufology is not a discipline.

"But there is hope. Now our Ufological scholars are awash with documents due to the magic of the Freedom of Information Act (FOIA). We have an opportunity to anchor the phenomenon solidly in time, in institutions of the gravest nature, and in context. We should begin 'everywhere and everywhen,' but we should particularly begin at the beginning. It is my opinion that for our purposes, the post-war period, the Cold War environment, and Project Sign are the beginning." — *Dr. Michael D. Swords, Professor of Natural Sciences, Western Michigan University*

In this volume of "The Majestic Documents" are some of the documents that will help establish a history that includes the covert, heretofore concealed, evidence that describe the process of recovery, cover-up and analysis of alien craft. These words provide a glimpse into the plans to inject discoveries of alien technologies into our society. The enigma of Ufology is disappearing into the reality of the recovered hardware. — *Dr. Robert M. and Ryan S. Wood*

INTRODUCTION AND SUMMARY

From 1992 to 1996, a man by the name of Timothy Cooper received documents in his P.O. Box from a person claiming to be Thomas Cantwheel. Don Berliner received an undeveloped roll of Tri-X film in his mail box in March, 1994 which contained the Special Operations Manual (SOM1-01). In 1984 Bill Moore and Jamie Shandera received the Eisenhower Briefing Document (EBD) in the same fashion as Don Berliner: undeveloped Tri-X film. In an attempt to authenticate all these documents, Bob Wood has met with all the recipients. Bob and his partner and son Ryan have devoted significant energy to authenticate them. One of the techniques often used is to replicate the documents. This, for example, identifies spelling and grammatical errors easily with electronic checkers. Also, it improves the readability and reinforces the content.

This book does not contain any authentication data. It merely lets the reader be exposed for the first time to this remarkable series of 15 documents that tell a story of extraterrestrial hardware, discovery and concealment over the years by United States military and Government officials.

Following each of the copies of our "original" documents are the replica document pages, intended except as noted to be identical to the original, including misspellings and other errors. They are sometimes called out at the end of the document, sometimes on each page, and sometimes not at all. If you, the reader, find flaws in our replications we are eager to know and correct them in a continuing effort to make them resemble the originals.

Since manual typewriters have either 12 characters per inch (elite type) or 10 characters per inch (pica type), and there are six lines vertically per inch if the paper is not slipping, it is possible to count precisely the number of missing letters on portions that are illegible or redacted. If you believe you can logically determine the missing words or phrases, we would love to gain your insight. Drop us a note at the P.O. Box shown on the title page.

If you feel that you have a first hand story, physical evidence or documents that would support our effort we encourage you to forward your best copy to us and keep the original in a safe place. We will completely respect all confidences.

Although we believe these documents are genuine, we are not including that evidence here, since it will be presented in our upcoming book: **THE SECRET: Evidence That We Are Not Alone**. The book is in preparation and involves a sophisticated treatment of the usual elements of questioned document examination, along with witness testimony.

The Project Kairos website (www.the-word-is-truth.org) has some additional authentication discussion along with a description of our upcoming 1999 documentary film being produced by Gary Beebe and White River Productions.

In the meantime, you will have the chance to decide for yourselves.
